*La Cocina Pública / The Public Kitchen*

Housed in a shipping container, [La Cocina Pública](#) is a mobile kitchen that brings people together through theatre, food and dining. Travelling from Chile through cities and neighbourhoods in Europe in search of local recipes, aromas, practices and customs, La Cocina Pública will work with Cork's South Parish residents to share stories and food that will be enjoyed at delicious collective dining events – with Chilean and Cork artists, storytellers, singers and musicians providing you with memories and entertainment. Your ticket includes a meal, but to encourage a family-friendly atmosphere for all ages, no alcohol will be served at these events.

### 16:00 – 19:00

We will embark on a guided tour of the growing spaces and greening activities across the South Parish, including [St. Stephen's Sustainable Food Lab](#), the **Food Forest**, and the new **Green Wall** which is being constructed in Red Abbey Square in the South Parish.
